Honorable John O. Pastore  
Chairman, Joint Committee on Atomic Energy  
Washington 25, D. C.

Dear Senator Pastore:

Representatives of the CIA met with members of the Joint Committee staff on 25 July 1963 and provided a briefing on some aspects of the [redacted] case of [redacted]

[redacted] Following our briefing, Mr. Conway requested a summary of the information this Agency has furnished to the Atomic Energy Commission on this case.

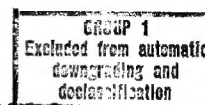

I should like to point out, as my representatives indicated in the briefing, that the over-all responsibility for collecting all information in the United States and for developing a damage assessment to the United States has been assigned to the Federal Bureau of Investigation. Therefore, while I am pleased to provide the requested summary, which is enclosed herewith, the primary point of contact for inquiry on all aspects of this case should be the FBI. The attachment represents only information developed by the CIA from confidential, sensitive sources abroad, and does not constitute a complete account of the case.

Sincerely,

John A. McCone  
Director
